## New Ministerial Authentication Service for GESTIM coming soon

The Ministère des Ressources naturelles et des Forêts (MRNF) announces the progressive implementation of the new Ministerial Authentication Service. This service will replace the current authentication solutions for all MRNF online services, making it the only way to access services requiring secure authentication.

This new service reflects the Gouvernement du Québec's commitment to strengthen the protection of your personal information while supporting the digital transformation of the State. Through this initiative, we aim to provide a more seamless and secure user experience while ensuring the confidentiality of your data.

In order to prepare you for this transition, we have developed a detailed user guide. This guide will help you become familiar with the new method of connecting to the GESTIM application before the official launch of the Ministerial Authentication Service. Here you will find step-by-step instructions, screen shots and practical tips to help you adapt: [Connecting to the GESTIM Ministerial Authentication Service](#).

We will let you know as soon as this new service is live.

If you have any questions or require additional information, please contact us by email at the following address: [services.mines@mrnf.gouv.qc.ca](mailto:services.mines@mrnf.gouv.qc.ca).
